October 2, 2025

Eureka City Residents:

The City of Eureka has recently finished our 2025 Drinking Water Source Protection Plan Update in accordance with state laws. As a part of the implementation of our plan, we wanted to notify you that your residence is located in the source protection zones of our water sources. This means that the groundwater that runs under your land is part of the water that runs to our water source's intake. Because of this, we wish to give you information about what you can do to keep our town's drinking water sources safe for consumption.

With this letter, we have attached a brochure explaining what things you can do to protect our town's water sources. Please read these brochures and call us at 435-433-6915 if you have any questions.

Respectfully,

Antoinette Dever,
Eureka City Mayor
